
STEAM SOLUTIONS

For those seeking wellness in the comfort of their homes, Jaquar steam solutions are a great way to enjoy the benefits of humidifying water vapour from a high-quality steam generator.

Why Jaquar Steam Solutions?

Features

Absolute Quality of Materials

Jaquar hydromassage showers are made of co-extruded acrylic, which does not discolour and has a long life. This hygienic material, together with the smooth surfaces and tempered glass shower enclosures, makes cleaning an easy part of the product experience.

Advantages:

Stability and Mechanical Resistance

Jaquar shower boxes are characterised by stability and solidity thanks to the zinc-plated steel frame that ensures maximum rigidity of all the components. Stability and mechanical resistance are also the attributes of the shower tray reinforcement.

Easy Installation

The installation of the shower boxes is as easy as it can be: the metal frame carries the elements and is simply put together.

Digital Control

It allows you to manage all manual control functions including sequential back rain jets, back jets, waterfall cervical massage, duration of vertical hydromassage, steam bath function, light, radio and white LED lighting

Control Units

All the hydromassage shower functions can be simply adjusted through easy-to-use control units.

Manual Control

It allows you to manage the shower head and vertical jets, as well as activate the steam-bath function.

Benefits:

Clearer skin

Steam showers have the ability to unclog pores and remove deeply trapped congestion from under the surface of the skin

Infection treatment

A major benefit of regular steam showers is relief from respiratory infections

Increased circulation

Steam showers are an excellent way to naturally boost circulation throughout the body. Increased circulation brings more oxygen to cells and decreases the risk of hypertension, hardened arteries and muscle function

Stress relief

One of the most powerful benefits of steam showers is their ability to reduce both physical and mental stress
